DETAILED ACTION

1. Claims 1,11,20, and 22 have been amended.
2. Claims 1-22 are pending.

Response to Arguments

3. Applicant's arguments filed 03 January 2006 have been considered and they are persuasive.

Allowable Subject Matter

4. **Claims 1-22** are allowed.
5. The following is an examiner's statement of reasons for allowance: The present invention is directed towards a public key certificate method and system for executing a person authentication for identifying a communicating party on the other end in data communication via a medium or a communications network (i.e., Internet), allowing an efficient use of a public key. Each independent claim identifies the uniquely distinct features **"generating a verification certificate based on an identifier of the requesting person when person authentication is established, updating information indicating a history of issuing verification certificates"**. The closest prior art, Musgrave et al. (US Patent No. 6,505,193) discloses a system and method for conducting fast biometric database searches using iris recognition and digital certificates, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious. The closest prior art, Khidekel et al. (Pub No. 2001/00274527) discloses a secure transaction system receiving a request for access to a first server by a user. The request includes the user's credentials such as biometric

information, an electronic certificate, or other information. The user is authenticated based on the credentials, and a token is sent to the first server. The token indicates whether the user has been authenticated and includes criteria about the user, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

6. Therefore, **claims 1,11,20, and 22** and the respective **dependent claims 2-10,12-19, and 21** are in condition for allowance.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
